BI Trainee

We, at Arηs, want to build teams based on **young peoples** who desire to perform, improve their skills, and build a **rewarding career**.

To these **brilliant minds**, we offer the best place to work, the most interesting projects using the **latest technologies**, always in a practical domain where they **can immediately see** the impact of their **own progress**.

You are **talented**, **motivated** and **ambitious**? Then, we will be more than happy to **meet you!**

As a Datastage Trainee, you will:

- Understand the jobs of the EIB
- To become familiar with the different aspects of decision-making systems (universe, objects, reports, data extraction, databases ...)
- Adapt to an agile method of project management, including regular monitoring meetings.
- Analyze the data made available, identify information from SAP Business Objects and data quality information used when extracting the Data Warehouses.
- To propose to management Key Performance Indicators (KPIs) allowing different types of information (use, creation, ...)
- To propose a data model relating to the KPIs validated by management for the creation of the Dashboard, followed by its creation.
- Load the data model via the IBM Infosphere DataStage ETL
- Create the Dashboard
- Documentation in English

Tools:

- SAP Business Object
- SAP Lumira
- PowerDesigner
- SAP SYBASE IQ
- ETL: IBM Infosphere DataStag

We are looking for a student:

- Curious and creative;
- Team player;
- With an interest for state of the art technologies;
- Autonomous and dynamic
- Fluent in French and English

What we offer to the candidate:

You will join an existing team and be fully involved in the project. This will be a unique opportunity for you to work on strategic topics for the company and the Cloud Team. You will be integrated in an exciting company hiring dozens of young graduates each year. If you want to grow up with us, please send us your CV.
