Java Developer Trainee (M/F)

We, at Arɳs, want to build teams based on **young people** who desire to perform, improve their skills, and build a **rewarding career**.

To these **brilliant minds**, we offer the best place to work, the most interesting projects using the **latest technologies**, always in a practical domain where they **can immediately see** the impact of their **own progress**.

You are **talented**, **motivated** and **ambitious**? Then, we will be more than happy to **meet you**!

Internship Subject:

Rewritting a Java EE application (WebSphere Liberty, Java 8, JSF) using Quarkus

#Keywords

- Java 8 / Java 17 ;
- JSF ;
- WebSphere Liberty ;
- Quarkus (https://quarkus.io/get-started/) ;
- PostgreSQL ;
- Maven ;
- Docker ;
- Kubernetes ;
- GitLab.

As a Java Developer Trainee, you will:

- Learn how to develop in backend supported by a friendly mentor.
- Learn how build and maintain efficient and reliable Java code.
- Support continuous improvement by investigating alternatives and technologies.
- Ensure the best quality and responsiveness of the applications.

We are looking for a student:

- Curious and creative;
- In the love of code;
- Team player;
- With an interest for state of the art technologies;
- Autonomous and dynamic

- Fluent in French and English

What we offer to the candidate:

You will join an existing team and be fully involved in the project. This will be a unique opportunity for you to work on a strategic tool that will be used by the community. You will be integrated in an exciting company hiring dozens of young graduates each year. If you want to grow up with us, please send us your CV.
