Fullstack Developer Trainee

We, at Arηs, want to build teams based on **young peoples** who desire to perform, improve their skills, and build a **rewarding career**.

To these **brilliant minds**, we offer the best place to work, the most interesting projects using the **latest technologies**, always in a practical domain where they **can immediately see** the impact of their **own progress**.

You are **talented**, **motivated** and **ambitious**? Then, we will be more than happy to **meet you**!

#Keywords

- Angular;
- REST;
- Java 8;
- The Spring ecosystem including Hibernate;
- Docker;
- SCRUM;
- Agile practices (continuous integration, automated testing, pair programming…);
- Team spirit.

As a Fullstack Developer Trainee, you will:

- Learn how to develop in backend and frontend supported by a friendly mentor.
- Meet the users of the system, collect requirements, design and implement solution, deliver and demonstrate it in front of end-users.
- Rely on automated Continuous Integration / Continuous Development for unit testing, deployment and integration testing.
- Learn the behavior of a project life cycle and Agile methodologies.

We are looking for a student:

- Curious and creative;
- In the love of code;
- Team player;
- With an interest for state of the art technologies;
- Autonomous and dynamic;
- Fluent in French and English.

What we offer to the candidate:

You will join an existing team and be fully involved in the project. This will be a unique opportunity for you to work on a strategic tool that will be used by the project leaders, contributing to their day-to-day work: existing requirements, solutions to design and implement, direct benefit for the team itself. There is no better way to understand Arhs team spirit than living it live with us. You will be integrated in an exciting company hiring dozens of young graduates each year. If you want to grow up with us, please send us your CV.
