**Date:** 5 Sep 2024

**Location:**  
Luxembourg, LU

**Company:** Deloitte Luxembourg

**Job Function:** Technology & Cyber Security

**Seniority:** Trainee

**Contract Type:** Internship

Deloitte provides a broad range of cyber security services to respond to a fast-paced and ever-changing environment. Our cyber security specialists have hands-on experience not only in assessing complex networks and systems, but also in designing and implementing information security governance and transformation programs. As a cyber-security trainee, you will work with our diverse teams of leading professionals to help design and implement solutions to some of today toughest cyber security challenges. You will have the

opportunity to build skills across a variety of cyber risk domains and gain exposure to the challenges of a range of industry sectors.

**What will you do :**

- Help clients to address the underlying security challenges raised by the digital transformation journey (IoT, Mobile technologies, Cloud computing, etc.)
- Participate in solution assessments across the solution lifecycle: concept, design, pre-deployment, post-deployment, end of life. This may involve testing inclusive of penetration testing in a non-prod environment (e.g.. device software stack penetration testing, software architecture and protocol design reviews, etc.)
- Support our product development and eminence activities
- Communicate business and technical risks at all levels of audience

**What About you :**

- Master Degree in Computer Science, Information Systems, Information Security or other technology disciplines is recommended
- Having a relevant work experience (e.g. internships, summer positions, school jobs, or first work experience) would be considered as an asset
- Understanding of Linux or real time operating systems and Internet of Things (IoT) devices is required
- Having programming skills (e.g. Python or C/C++) would be considered as an asset
- Demonstrating problem solving and critical thinking skills
- Be capable of working both independently and as part of a fast moving team
- Fluent in English **and French/or German**

**Then join a global company with a human touch.**

Deloitte Luxembourg welcomes you to a positive and flexible work environment. You'll discover our remarkable [new premises](#), located in Cloche d'Or, Luxembourg's fastest growing Business Hub. With over 2500 employees and 70 nationalities, our [multicultural environment](#) promotes a culture of inclusion, trust and recognition. **Your future team**

Our consultants provide major financial institutions, large public entities and global organisations with customised solutions and strategic advice, for both technical, process and organisational aspects, covering most Business domains, supported by leading digital platforms and innovative Fintech.

Our Industry Solutions Digital Banking practice provides advisory and delivery services to our Financial Services Industry (FSI) clients all around the world.

As an Intern within our ISDB Practice you will have the opportunity to participate in the delivery of major transformation programmes by our digital banking practice and to get exposure to cutting edge solutions on the market.

**Your next challenge**

- Taking ownership of a thought leadership topic together with a senior expert
- Supporting innovation and market research to further develop our services offerings
- Participating in feasibility studies and conducting ideation sessions
- Determining functional requirements for application design bringing best of class User and Customer Experience
- Analysing key steps of digitalization process and optimisation levers along the value chain
- Designing specifications and drawing up technical documentation and reports
- Developing and testing detailed functional designs for business solution components

- Participating in application building, testing, and deployment activities in interaction with technical and IT teams
- Measuring the results of our projects and proposing continuous improvements

## Your skills

- You are enrolled in a Master's degree (Bac +4/5) in business administration, finance, information technology or computer science
- A proactive and dynamic attitude, a client-oriented approach and you pay attention to details
- You are able to build lasting and trusting relationships with our clients and company teams
- Previous internship/experience in a relevant area will be considered as an asset
- Strong interest and affinity with digital and technology
- Willing to work in an international context and ability to travel extensively
- Being fluent in English, French or German will be considered an asset

## We want to hear from you! Join us and...

- Work alongside recognized experts
- Enjoy and promote diversity in our multicultural teams
- Have the possibility to work on assignments abroad
- Further develop your competencies with a tailor-made training plan, exploiting our induction program

## What impact will you make?

Every day, your work will make an impact that matters, while you thrive in a dynamic culture of inclusion, collaboration and high performance. Deloitte is where you will find unrivalled opportunities to succeed and realize your full potential.
